Full Stack Software Engineer

Full Stack Software Engineer with **3 years of experience** building POS Systems, E-commerce Platforms, Business Management Systems, Admin Dashboards responsive and scalable web applications. Skilled in *React.js Redux Toolkit (RTK Query), Next.js, Tailwind CSS, Typescript, and API integration*. Proven ability to **lead frontend development of projects from scratch to deployment**, mentor interns, and deliver high-quality solutions. Seeking opportunities to contribute as a Frontend Engineer or Full-Stack **team player** in positive, growth-oriented teams.

Work Experience

Tech Emulsion, Pakistan **Oct 2025 - Present**
Software Engineer, Peshawar

- Lead developer on Ludooka, an AI-powered educational platform generating personalized children's books, audiobooks, and multilingual content.
- Solved 80% of AI-generated **character-consistency** failures across story illustrations using Gemini image models.
- Built ElevenLabs-based audio pipeline: voice cloning, text-to-speech, and audiobook generation tuned for natural narration.
- Implemented AI observability and cost-tracking to monitor and control **LLM API** usage in production.
- Analyzed 1.4M+ auto repair order records to build accurate profit and sales calculations for a client dashboard.
- **Manage client communication** and requirements directly, translating business needs into shipped features.
- Tech: React, Next.js, Tailwind CSS, Supabase, Lovable, Cursor, Gemini API, ElevenLabs API, MERN Stack.

ICONAF **Nov 2024 - Present**
Frontend Web Developer, Islamabad

As the **Lead Frontend Developer**, I contributed to designing, developing, and deploying modern web applications using the latest frontend technologies, including React.js and Next.js. My role involved leading project workflows, **mentoring junior developers**, and ensuring seamless integration with backend services.

- Led frontend development for a *pharmacy e-commerce platform* featuring **20+ product categories, 7+ medical services**, prescription management, and online video consultations.
- Built a comprehensive **admin panel** for **sales reports, inventory, staff, and services** using React + Redux Toolkit.
- Integrated **authentication, cart management, payments** (Peach Payment), and real-time API synchronization for smooth customer experiences.
- Collaborated with the backend team (FastAPI) to optimize data flow and payment processes.
- Designed and developed multiple projects from **Figma to production deployment**, leveraging React, Next.js, Docker, CI/CD pipelines, and cPanel/server deployments.
- Mentored and guided **2 junior frontend developers**, ensuring efficient project workflows and best practices in translating Figma designs into React applications.

MindGigspk, Pakistan **Sep 2023 - Sep 2024**
Frontend Web Developer, Peshawar

As a Junior MERN Stack Developer with a focus on frontend, I contributed to **building POS systems, admin panels, and CRM projects** while enhancing my skills in React.js and modern frontend technologies. I also **mentored interns**, helping them strengthen their web development fundamentals.

- Developed **4+ full-stack application**s using React.js, Redux Toolkit, RTK Query, Bootstrap, and REST APIs, ensuring modular code and seamless API integration.
- Built responsive UIs for POS systems, CRM platforms, and admin dashboards.
- Collaborated with cross-functional teams to deliver scalable and user-friendly applications.
- Mentored 5+ interns on HTML, CSS, JS, React fundamentals.

Education

Khushal Khan Khattak University Karak, Karak, Pakistan, Bachelor of Science in Computer Science, (GPA: 3.75/4), Aug 2019 - Mar 2024

- **IELTS:** 6.5 Bands Overall

Projects

Tech Emulsion, Ludooka, Link **Feb 2026 - Present**

- **Lead Developer**
  An AI-powered platform generating personalized, multilingual children's books with narrated audiobooks.
  - Took over a broken codebase and shipped a working platform in 5 months.
  - Built a 13-phase book generation pipeline covering story creation, illustration, and audio narration.
  - Integrated ElevenLabs voice cloning and Stripe billing (subscriptions, one-time purchases, credit top-ups).
  - Designed the credit system and consumption logic across all generation features.
  - Built platform admin panel, organization admin panel, and author marketplace.
  - Shipped a language-learning feature and multilingual application support.
  - Integrated Lulu print-on-demand for physical book fulfillment.
  - Tech: React, Supabase, Stripe, ElevenLabs API, Gemini API, Lovable

Tech Emulsion, AutoCar Intelligence Platform **Nov 2025 - Jan 2026**

- A centralized operational intelligence platform giving multi-shop owners a single source of truth without logging into each shop's system separately.
  - Built a multi-shop data aggregation layer that normalizes inconsistent fields and stores historical snapshots for month-over-month and year-over-year comparison.
  - Implemented deterministic sales and profit calculations (labor, parts, sublets, RO averages) that owners can audit.
  - Built aging work-in-progress tracking that flags high-dollar repair orders without deposits and surfaces risk by RO age and vehicle value.
  - Built a hybrid data pipeline combining Tekmetric API data with a Chrome extension for metrics the API doesn't expose.
  - Tech: React, Supabase (PostgreSQL, Edge Functions), Tekmetric API, Chrome Extension

ICONAF, Health on Point Pharmacy Platform, Link **Nov 2024 - Jun 2025**

- A full-featured pharmacy e-commerce platform with integrated healthcare services.
- Led frontend development for a **pharmacy e-commerce platform** featuring 20+ product categories, 7+ medical services, **prescription management, and online video consultations**.
- Developed a comprehensive admin panel for order reports, sales dashboards, **inventory management**, and promotional email campaigns.
- Implemented online video consultations via **Zoom SDK**.
- **Tech:** React, Redux Toolkit, RTK Query, Tailwind CSS, FastAPI
- **Deployment:** Docker, CI/CD with GitHub Actions, server deployment.

ICONAF, Task Management System **Jul 2025 - Present**

- A multi-business management platform enabling streamlined operations from a central dashboard.
- Features include **attendance tracking, employee management, task assignment, and progress tracking.**
- Built with Next.js (TypeScript), React Hook Form, Zod validation, Zustand, ShadCN UI, and Tailwind CSS.
- **Deployment:** Docker, CI/CD with GitHub Actions, server deployment.

University, Career Path Portal (FYP), Link **Mar 2023 - Aug 2023**

- A student career roadmap portal with 5+ industry tracks (Frontend, AI, ML, etc.), each containing tens of topics and generating **500+ pages** dynamically.
- Includes authentication, roadmap tracking, and progress monitoring for learners.
- **Tech:** React, Node.js, MongoDB, Figma
- **Deployment:** Netlify (frontend), Heroku (backend).

MindGigis, Assets Management System | POS System (Faizan Auto) | Loan Management System **Sep 2023 - Sep 2024**

- Developed during tenure at Mindgigs, under senior mentorship.
- **Assets Management:** Inventory, vendor, and reporting system.
- **POS (Faizan Auto):** Managed 1,000+ products, sales & purchase modules, dynamic dashboards.
- **Loan Management:** Loan tracking with CRUD, payment history, and report generation.
- **Tech:** MERN Stack, Redux Toolkit, Bootstrap.

ICONAF, Other Projects, Link **Jan 2025 - Sep 2025**

- Iconaf - Link
- Invent Group - Link
- Indalo Wealth - Link

- Delivered small-to-medium frontend projects using React.js, optimized for scalability and client-specific requirements.

Core Competencies

Top Skills React.js, Next.js, Redux Toolkit (RTK Query), Context API, Zustand, Material UI, ShadCN UI, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap., TypeScript
Backend (Basics) Node.js, Express.js, MongoDB, REST APIs.
DevOps (Basics) Git/GitHub, Docker, CI/CD (GitHub Actions)
Soft Skills Collaboration, Problem-Solving, Communication, Adaptability, Attention to Detail.
